## Projects

**Arena (https://muralikrishna0410.github.io/Arena)**
- ReactJs | HTML | CSS
- An E-commerce website that enables you to select your category, add to cart option, and provide the promo code option to decrease the cost of the cart.Used React hooks, props and React-styled components.
- Understood the usage of usestate in different components for useContext Hooks.
  https://github.com/MURALIKRISHNA0410/Arena

**My-ContactsApp**
- This application is a contact app where the user can be able to store their contacts in such a way that only a valid user can be able to access contacts mapped to that particular user
- This Authentication is provided with the help of JWT (JSON web tokens) With the ThunderClient extension,the API calls were examined for development purposes.
- Understand the usage of scope of routes (Public and Private Routes) so that the authenticated user with a valid token would be allowed to do crud operation.
  https://github.com/MURALIKRISHNA0410/mycontacts

**Blood Donation Awareness Website**
- HTML | CSS
- A static website which displays the testimonials of the blood donors describing the importance of the blood donation.
- This project was developed because our college hosts blood donation camp every year  and the number of donors were reducing drastically so we tried to create awareness about blood donation through the page.

## Academic and Extracurricular Achievements

- Achieved top **100** in weekly coding contest of **Coding Ninjas**
- Top **10** in campus Ranks of our College(in geeksforGeeks).
- Scored **95.54** percentile in **JEE-MAINS 2020.**
- Runners in Zonal Volleyball competition.

## Positions of Responsibility

- Academic Major & Minor Projects **|** Team Lead
- VolleyBall Team captain
